Member's Signature

Member of Congress

Project Information

Name of Project: Procurement of C40C Aircraft, Scott Air Force Base

Project Description: The 932nd Airlift Wing (AW) and the 375th AW at Scott AFB need additional C-40 aircraft to recapitalize its fleet to continue to meet our airlift requirements and support national policy.

The 932nd AW is an active associate unit comprised of three 3 C9C aircraft and three C40C aircraft. The Air Force previously acquired three C-40C aircraft at Scott AFB to support OSA missions. The C9Cs are programmed to retire in FY11, without an identified follow-on aircraft. The Air Mobility Command and the Air Force Reserve strongly support an increased association for six C40C/Ds.

Check this box if this request includes an attachment with additional project description information
